and Maintenance of Protective Gloves

EN

**OCEAN[®]**

CATEGORY II

BLUE 100**Application:**

The protective gloves OCEAN[®] BLUE 100 model are made of knitted polyester fabric coated with latex and protect hands from mechanical hazards (wear resistance: grade 2, cut resistance: grade 1, tear resistance: grade 2, puncture resistance: grade 1).

The OCEAN[®] BLUE 100 model protective gloves have been classified as the second category personal protective equipment. The product conforms to the relevant requirements of the EU harmonisation legislation: Regulation (EU) 2016/425. The declaration of conformity is available on the website www.robod.pl/ce

Explanation of Designations:

1	2	3	4	5	6
1. Manufacturer's name.	4. Date of production month/year				
2. Designation of gloves.	5. Make yourself familiar with these instructions before use.				
3. Glove sizes: 6, 7, 8, 9, 10, 11.	6. The gloves conform to the relevant requirements of the EU harmonisation legislation: Regulation (EU) 2016/425.				

The gloves have been tested in accordance with the requirements of the following standards: EN ISO 21420:2020, EN ISO 21420:2020/A1:2024, EN 388:2016+A1:2018

EN 388:2016

a b c d e

Protection level	Effectiveness level
a - Wear resistance (0-4)	2
b - Cut resistance /indicator/ (Coupe Test) (0-5)	1
c - Tear resistance (0-4)	2
d - Puncture resistance (0-4)	1
e - Cut resistance (TDM) [N] (A-F)	X

Mark X - The test has not been performed.

---A mark of 0 indicates that the gloves do not meet the lowest performance level for a given hazard. The effectiveness levels presented in the table refer to the palmar part of the gloves.

Disposal:

Dispose in conformity with the local regulations mandatory in the given country.

CATEGORY II

BLUE 100**Cleaning and Maintenance:**

Gloves should not be washed. Soiled gloves should be cleaned with damp cloth or soft brush.

Transportation and Storage:

Store and transport the gloves in genuine packages, in a cool and dry place, away from light spots, protecting it from getting soiled, mechanically damaged and impacted by chemicals. Do not store the gloves for more than 3 years following the date of purchase.

NOTE:

- ① Glove sizes should be selected to fit the hand size.
- ① We recommend you to visually inspect the gloves to check if they have not been damaged. Damaged gloves (abrasions, tears, possibly rips etc.) should be immediately withdrawn from use.
- ① The product contains natural rubber (latex) which can cause allergic reactions in some users. If you notice any allergic reaction, leave the hazard zone, take off the gloves and consult a doctor.
- ① Do not wear the gloves if there is a hazard of getting pulled in by moving machine parts.
- ① Protection limited to a part of the hand.
- ① Gloves provide protection only against the hazards indicated in these instructions for use
- ① In case of materials blunting the blade during the cut resistance test (according to EN 388:2016 point 6.2, "Coupe Test"), the test results are approximate while the cut resistance test result (acc. to EN 388:2016, point 6.3, "TDM") is a reference result.
- ① A list of allergenic substances is available from the manufacturer.
