

RIDER

Protective gloves

The gloves are made of cow grain leather in palm area including the thumb, while the back is made of cow split leather.

They feature good dexterity, abrasion and tear resistance, which extends the life period of the gloves.

Special construction makes the glove even more fitting to the hand.

To make it easier to identify the sizes, the gloves are provided with coloured cuff ribbing.

The gloves meet general requirements for personal protective equipment provided in Regulation (EU) 2016/425 and in the Harmonized Standards: EN 21420 and EN 388.

Technical Information:

Material:	cow grain and split leather
Performance level:	2132X
Sizes:	9, 10
Order numbers:	R-I-RIDER-XX* <small>*insert size for XX</small>

Size identification by variously coloured cuff ribbing:

EN 388 Protective gloves against mechanical risks

*Performance level	1	2	3	4	5	
Resistance to abrasion / cycles	100	500	2000	8000	-	
Cut resistance / index	1,2	2,5	5	10	20	
Tear strength [N]	10	25	50	75	-	
Puncture resistance [N]	20	60	100	150	-	
	A	B	C	D	E	F
Cut resistance (TDM) [N]	2	5	10	15	22	30

The letter X means that the test was not preformed.
