

TORRENT 100

Protective gloves

The gloves are made of seamless polyester knitwear (13g).

The palm area and the finger tips are coated with smooth nitrile.

The non-coated back side increases breathability, improving the comfort of use. The palm area features high resistance to wear which additionally extends the product lifetime.

The gloves are designed for works carried out in dry environment where good precision and high resistance to wear are required. They are used for general construction, installation and mechanical works as well as other purposes.

They are provided with elastic welt finished with coloured thread used for size identification.

The gloves meet general requirements for personal protective equipment provided in Regulation (EU) 2016/425 and in the Harmonized Standards: EN ISO 21420 and EN 388.

Technical Information:

Material: seamless nitrile-coated polyester knitwear

Performance level: 4121X

Sizes: 7, 8, 9, 10, 11

Order numbers: R-I-TORRENT100-XX*

*insert size for XX
