

RINO LEATHER

RINO LEATHER Welder's Front Protective Apron

- Made of cow split leather.
- It provides protection against short-lasting contact with flame, heat penetration (radiation) and the impact of molten metal droplets.
- The seams are made with non-flammable threads.
- It is equipped with an adjustment system which makes it fit the user's figure in an optimised way.
- It can be used for welding or cutting or for related operations as a supplementary equipment for the welder's textile clothing.
- It ensures comfort and extends the usability of textile clothing, covering those body parts which are most exposed to splashes of molten metal.
- It meets the requirements contained in the Regulation (UE) 2016/425 and the harmonised standards: EN ISO 13688 and EN ISO 11611 (class 2).
- Aprons are available in two sizes: FDB8104 (104 cm x 83 cm) and FDB9120 (120 cm x 91 cm).
