

## DROGOWIEC PREMIUM

The jacket is designed to make the user visible in hazardous conditions, in all daylight conditions, in darkness and when illuminated by the lights of road vehicles.

### High Visibility Padded Jacket

- The jacket is provided with padding (weight: 210g/m<sup>2</sup>)
- It is closed with a plastic cubic zip covered with a flap closed with metal snaps.
- It has an unpadded hood folded into the stand-up collar.
- Equipped with practical pockets:
  - two front pockets covered with flaps fastened with two metal snaps,
  - dry pocket closed with a plastic string zip, sewn under a fold in the top part of the jacket,
  - two pockets with the hook and loop fastening on the left side lining.
- Sleeves designed to enable freedom of movements, two-coloured; at the bottom - navy blue with one strip of reflective tape, finished with welt of knit fabric; the top part comes with the fluorescent colour with a reflective tape strip.
- Bottom part of the jacket comes with navy blue pockets and flaps with one strip of the reflective tape. The top part in a fluorescent colour with the reflective tape at chest level and vertical tapes sewn along the entire arm.
- Bottom of the jacket finished with tunnel and draw string.
- Jacket made of waterproof fabric.
- Seams glued along the whole length.

The product meets basic requirements set for the personal protective equipment in Regulation (EU) 2016/425 and in the harmonised standards EN ISO 13688 and EN ISO 20471.
