

# NORMSTAT 100

The NORMSTAT collection products are capable of dispersing the electrostatic charge to prevent incendiary discharges. While creating the collection, we started with the premise that protective clothing not only can offer protective properties but also have an attractive appearance and colour solutions.

## Jacket

- Jacket with stand-up collar fastened with zip covered with fold with metal spring-type snaps.
- It is equipped with several practical pockets:
  - Zip-fastened pocket at front, loop for attaching e.g. an id tag fixed to pocket,
  - Cut, diagonal pockets with overlapping double strips in the bottom part of the jacket,
  - Open pocket sewn on left sleeve.
- Raglan sleeve with centre vertical strips in contrastive colour. Bottom part of the jacket finished with cuff fastened with hidden metal spring-type snaps.
- Bottom of jacket finished with belt with rubber.
- Sewn-in knitted fabric mesh under arms for greater comfort / ventilation.

## Belt trousers

- Waist with belt fastened with covered metal snap. Belt loops and tunnel rubber enable adjusting the trousers to the user's figure.
- Two open pockets with central box pleats, finished with strips at top.
- Trousers leg bottom finished in straight style with 5 cm roll-up.

The products meet basic requirements set for the personal protective equipment in the Regulation (UE) 2016/425 and the harmonised standards: EN ISO 13688 and EN 1149-5.
