

# MEGACHRON ONE

The MEGACHRON ONE model antistatic and hardly flammable protective shirt is capable of dispersing electrostatic charge to prevent incendiary discharges. The shirt also provides protection against accidental and short-lasting contact with fire.

## Shirt

- Comfortable and durable shirt with long sleeves, fastened with hidden metal spring-type snaps at the front. Big content of cotton (80%) provides the user with a high comfort of use.
- Two useful chest pockets covered with flaps fastened with hidden springs.
- Straight sleeve ended with cuff fastened with hidden spring-type snap.
- Collar fastened with hidden spring-type snap gives the shirt a modern look.
- Box pleat applied to the back of the shirt in the yoke area for greater freedom of movement.
- Sewn with non-flammable threads.
- Maximum number of maintenance cycles: 35.
- Perfect solution for summertime.

The product meets basic requirements set for the personal protective equipment in the Regulation (UE) 2016/425 and the harmonised standards: EN ISO 13688, EN 1149-5 and EN ISO 14116 (index 3).
