Explanation of graphic characters:

- 1) The product conforms to the EU harmonisation legislation requirements: with the Regulation (EU) 2016/425
- 2) The clothing meets the requirements of the harmonised standard EN ISO 20471:2013/A1:2016.
The digit "3" next to the graphic symbol indicates the visibility class of a clothing product.
- 3) Maximum number of maintenance cycles - 25 maintenance cycles.
- 4) Make yourself familiar with this usage manual before use.

Usage, Transport, Storage and Maintenance:

Store the clothing in its genuine packaging. Keep the clothes clean. The protection may become less effective when the clothing gets dirty. If the clothing is damaged, it should be immediately replaced. The clothing should be stored by being hung up in a dry and well ventilated room, far from heat and light sources and protected against getting soiled, damaged and affected by chemicals.

Cleaning and maintenance:

1

2

3

4

5

1. Maximum washing temperature: 40 deg. C. Standard process.
2. Do not use bleaching.
3. Do not dry in a drum dryer.
4. Do not iron.
5. Do not dry clean.

Disposal:

Dispose in conformity to the local regulations mandatory in the given country.

Note:

The specific maximum number of cleaning cycles is not the only factor related to the product lifetime. The product lifetime will also depend on the conditions on which it is used, stored etc.
