

MEGACHRON WINTER

Megachron Winter Collection features the ability to dissipate electrostatic charges in order to prevent igniting discharges. It also ensures protection against short-term contact with flames and convective heat.

Jacket

- High quality fabric composition with a flame retardant fabric finishing, insulation: Thinsulate™ FR.
- External seams made of non-flammable threads.
- YKK® zipper covered with a flap snapped with metal nap fasteners.
- The jacket has a detachable hood, two side pockets covered with flaps snapped with metal naps and an inside pocket closed with a velcro.

Waist Trousers

- Provided with an insulating layer of padding and lining (basis weight: 150 g/sm) and the YKK® zipper.
- Provided with a number of useful pockets:
 - Two side pockets
 - A back pocket covered with a flap fastened with covered press studs.
 - Pockets on both legs covered with a flap fastened with covered press studs.
- Special handle allowing fastening rescue breathing device.
- Outer seams made of meta-aramid FR threads.

There is a possibility of sewing the reflective tapes on.

The product conforms to the relevant requirements of the EU harmonisation legislation: Regulation (EU) 2016/425, and meets the requirements of the standards: EN ISO 13688, EN ISO 11612, EN ISO 14116 and EN 1149-5.

EN ISO 11612 EN ISO 14116 EN 1149-5

A1 B1

Set of materials conforming to EN ISO 14116
 Limited flame spread index for the outer surface 3
 Limited flame spread index for the insulation 1
 Limited flame spread index for the inner surface 3
